

60-count box

Neo40 PROFESSIONAL

Available in 2 Sizes

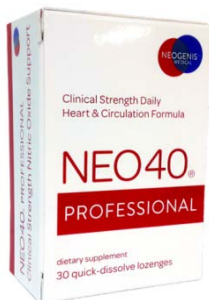

Clinical strength nitric oxide restoration formula, with added methylfolate for increased efficacy.

Patented, quick-dissolve lozenges clinically proven to generate nitric oxide in the mouth. The biphasic mechanism of action provides an immediate, rescue source of NO as well as a reserve pool of nitrate and nitrite, which the body can convert to NO in the endothelium as needed.

Optimal NO levels promote:

- Healthy blood pressure
- Overall arterial health
- Healthy triglycerides
- Improved sexual performance through increased circulation

60 Servings

NOx Support

\$49.99

A Daily Whole Food Solution for Additional Nitric Oxide Support

This nutrient-rich superfood is now available in a convenient, easy-to-take shot. NOx Support is a whole food nutrient complex made from premium, non-GMO beets utilizing a patented drying process to preserve the highest nitrate and phytonutrient content.

25 Strips

Nitric Oxide Indicator Strips™

\$19.98

Determine NO Bioavailability

The first rapid-response, non-invasive salivary nitric oxide indicator strip, offering a colorimetric measure of total body NO availability based on nitrite concentration. It is cost-efficient, convenient and a safer approach than blood collection for screening patient populations for NO bioavailability.

40 Scoops

BeetElite™ Black Cherry Canister

\$23.97

A daily source dietary nitrates to boost nitric oxide production for exercise performance and cardiovascular health.

BeetElite is a pre-workout “shot” that helps your body generate nitric oxide (NO).

NO helps the body:

- Support Healthy Blood Pressure
- Increase Circulation
- Improve Energy Production
- Increase Exercise Endurance
